

Introduction

Live chat models can now broadcast in High Definition (HD) on cams.com. In order to broadcast in HD, Models will need to:

- Meet the minimum hardware and software requirements
- Register an account on Adobe.com
- Install Adobe Flash Media Live Encoder 3 software (FMLE)
- Configure FMLE for HD broadcast on cams.com

System Requirements for HD broadcasting

In order to broadcast in HD, models will need to meet the minimum requirements below:

Windows Compatible PC:

Hardware requirements:

- Processor - Core 2 Duo 3GHz or AMD Athlon equivalent
- Memory - 1GB RAM
- Webcam with the ability to broadcast in 640 x 480 resolution

Windows:

Software requirements:

- Windows 7
- Windows 10

Macintosh:

Hardware requirements:

- Processor – Intel Core 2 Duo 2Ghz or higher
- Memory - 1GB RAM
- Apple iSight camera or external camera with the ability to broadcast in 640 x 480 resolution.

Software requirements:

- Mac OS X v10.5.6 or higher

IMPORTANT - If your computer does not meet the minimum requirements above, do not install FMLE on your computer.
