

If you experience any problems broadcasting with FMLE, you should un-install the software and contact us at HDsupport@cams.com for further assistance.

How to Uninstall Flash Media Live Encoder 3 (FMLE):

Windows XP and Windows 2003 Server

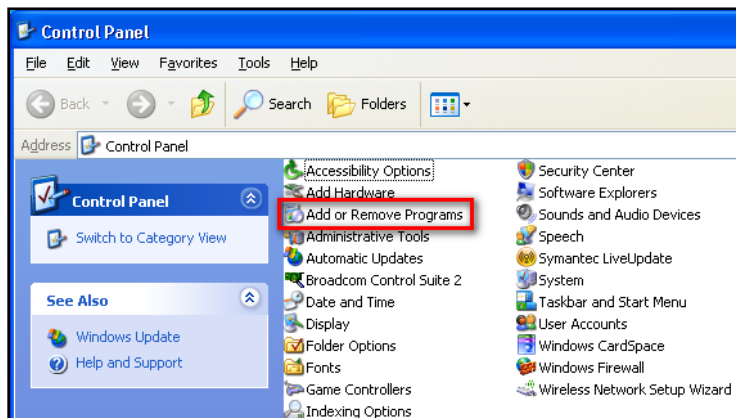

Step 1

Click on Start and select “Control Panel”

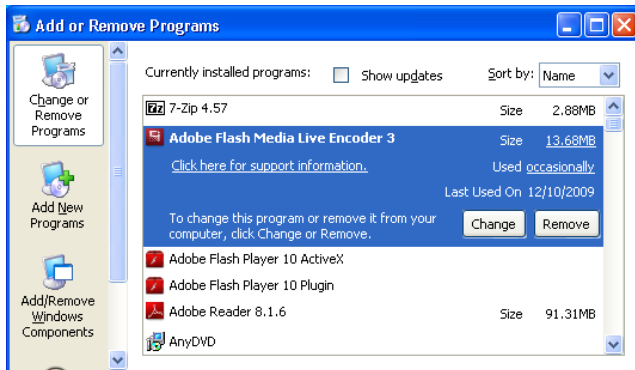

Step 2

Click on “Add or Remove Programs”

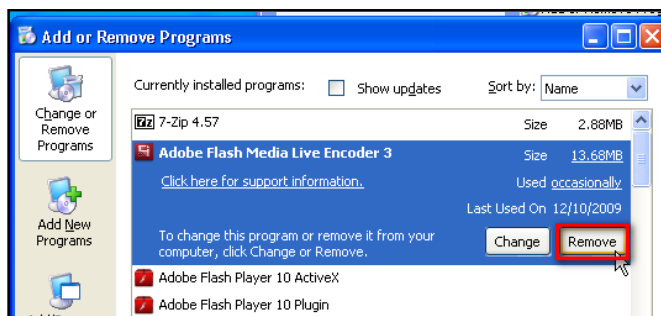

Step 3

Click on “Adobe Flash Media Live Encoder 3”

Step 4

Click “Remove”

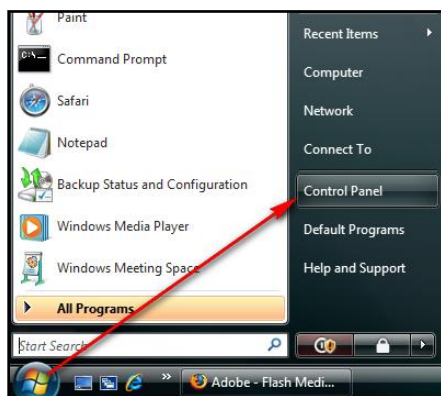

FMLE will now be uninstalled from your system and you can broadcast as you normally would.

Windows Vista Users

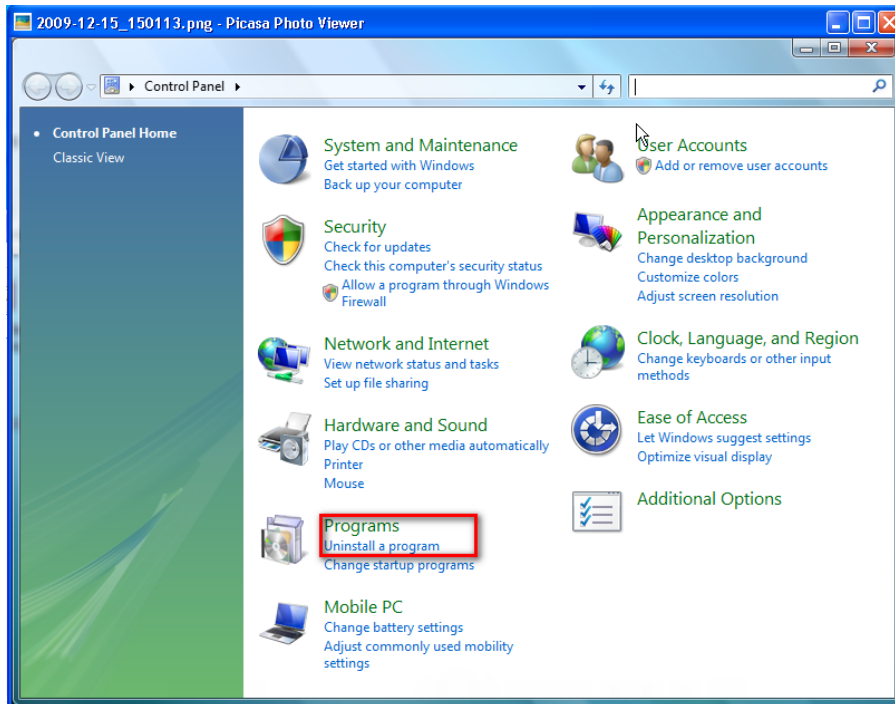

Step 1

Click on the Windows logo and select “Control Panel”

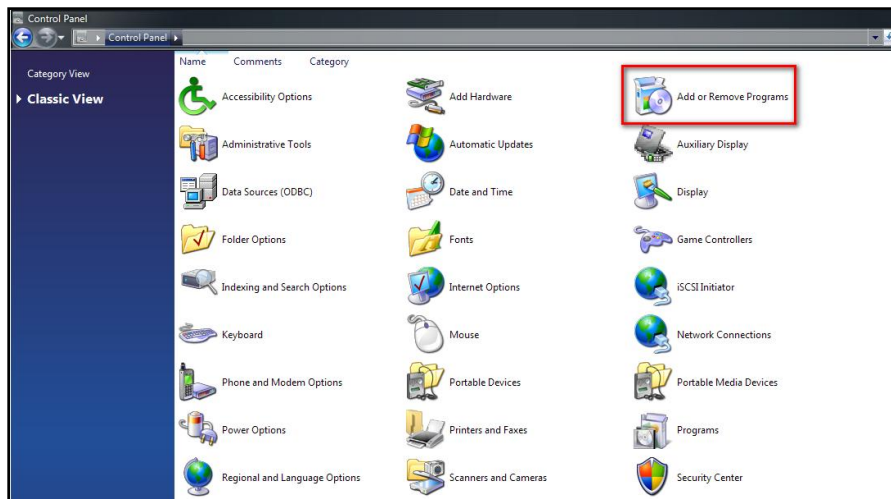

Step 2

Click on the link to “Uninstall a program” (Control Panel View)

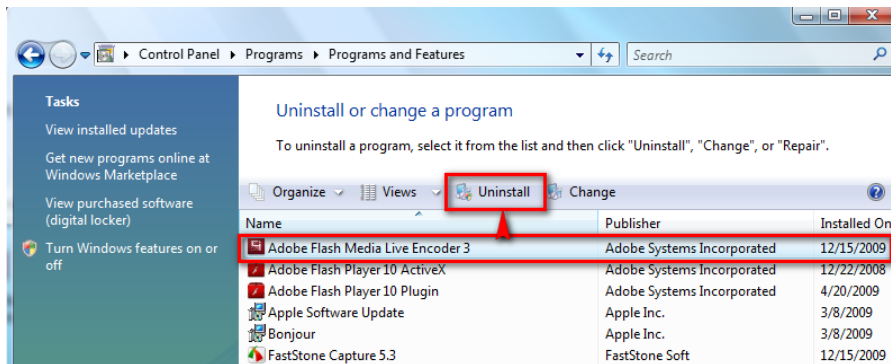

If you are using Classic View, click on “Add or Remove Programs”

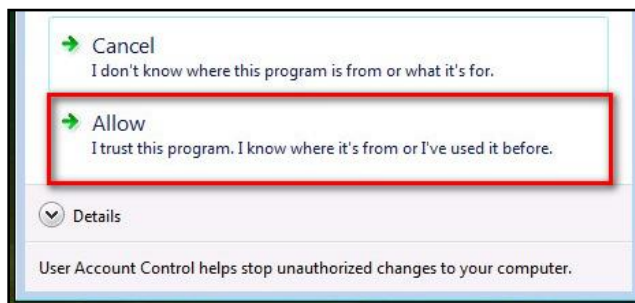

Step 4

Click on “Click on Adobe Media Live Encoder 3”. Click “Uninstall”

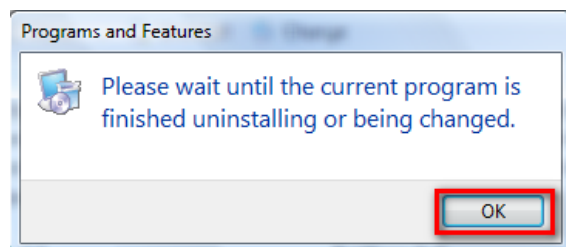

Step 5

If prompted, select “Allow”

Step 6

If prompted, click “OK”

FMLE will now be uninstalled from your system and you can broadcast as you normally would.
